# Raspberry Pi for Radio Amateurs

Program and build RPi-based ham  
station utilities, tools, and instruments

Dogan Ibrahim, G7SCU

---

|  |           |
|--|-----------|
| <b>Preface</b> .....   | <b>11</b> |
| <b>CHAPTER 1 • Raspberry Pi Models</b> .....                             | <b>12</b> |
| 1.1 Overview .....   | 12        |
| 1.2 Raspberry Pi 1 Model A .....   | 12        |
| 1.3 Raspberry Pi 1 Model A+ .....  | 13        |
| 1.4 Raspberry Pi 1 Model B .....   | 14        |
| 1.5 Raspberry Pi 1 Model B+ .....  | 15        |
| 1.6 Raspberry Pi 2 Model B .....   | 16        |
| 1.7 Raspberry Pi Zero .....  | 17        |
| 1.8 Raspberry Pi 3 Model B .....   | 18        |
| 1.9 Raspberry Pi Zero W .....  | 18        |
| 1.10 Raspberry Pi 3 Model B+ .....                                       | 19        |
| 1.11 Raspberry Pi 4 Model B .....  | 20        |
| 1.11.1 Raspberry Pi 4 purchase and setup options .....                   | 25        |
| 1.12 Summary .....   | 29        |
| <b>Chapter 2 • Installing the Operating System on Raspberry Pi</b> ..... | <b>30</b> |
| 2.1 Overview .....   | 30        |
| 2.2 Raspbian Buster installation steps on Raspberry Pi 4 .....           | 30        |
| 2.3 Using networked connection .....                                     | 33        |
| 2.4 Remote access .....  | 35        |
| 2.5 Using the Putty .....  | 36        |
| 2.5.1 Configuring the Putty .....  | 37        |
| 2.6 Remote access of the Desktop .....                                   | 38        |
| 2.7 Static IP address .....  | 39        |
| 2.8 Summary .....  | 42        |
| <b>Chapter 3 • Using the Command Line</b> .....                          | <b>43</b> |
| 3.1 Overview .....   | 43        |
| 3.2 The command prompt .....   | 43        |
| 3.3 Useful Linux commands .....  | 43        |
| 3.3.1 System and user information .....                                  | 43        |
| 3.3.2 The Raspberry Pi directory structure .....                         | 45        |
| 3.3.3 Resource monitoring on Raspberry Pi .....                          | 57        |

|   |           |
|---|-----------|
| 3.3.4 Shutting down . . . . .                                 | 59        |
| 3.4 Summary . . . . .   | 60        |
| <b>CHAPTER 4 • A Quick Look at the Desktop. . . . .</b>       | <b>61</b> |
| 4.1 Overview . . . . .  | 61        |
| 4.2 The Desktop . . . . .                                     | 61        |
| 4.3 Libre Office Writer . . . . .                             | 63        |
| 4.4 Libre Office Calc . . . . .                               | 64        |
| 4.5 VLC media player. . . . .                                 | 64        |
| 4.6 Calculator. . . . .                                       | 65        |
| 4.7 File Manager . . . . .                                    | 65        |
| 4.8 SD Card Copier . . . . .                                  | 66        |
| 4.9 Task Manager . . . . .                                    | 67        |
| 4.10 Terminal . . . . .                                       | 67        |
| 4.11 Help . . . . .   | 67        |
| 4.12 Add/Remove software . . . . .                            | 68        |
| 4.13 Mouse and keyboard settings . . . . .                    | 68        |
| 4.14 Raspberry Pi configuration . . . . .                     | 69        |
| 4.15 Shutdown . . . . .                                       | 69        |
| 4.16 Configuring Wi-Fi. . . . .                               | 69        |
| 4.17 Configuring Bluetooth. . . . .                           | 70        |
| 4.18 Summary . . . . .  | 70        |
| <b>CHAPTER 5 • Raspberry Pi Program Development . . . . .</b> | <b>71</b> |
| 5.1 Overview . . . . .  | 71        |
| 5.2 The 'nano' text editor. . . . .                           | 71        |
| 5.3 Creating and running a Python program. . . . .            | 73        |
| 5.4 Summary . . . . .   | 77        |
| <b>CHAPTER 6 • The GPIO. . . . .</b>                          | <b>78</b> |
| 6.1 Overview . . . . .  | 78        |
| 6.2 The Raspberry Pi 4 GPIO connector . . . . .               | 78        |
| 6.3 Interfacing to the GPIO . . . . .                         | 79        |
| 6.3.1 Loads requiring small currents. . . . .                 | 79        |
| 6.3.2 Loads requiring higher currents . . . . .               | 80        |

---

|   |            |
|---|------------|
| 6.3.3 Using relays . . . . .  | 81         |
| 6.4 The GPIO library . . . . .  | 82         |
| 6.4.1 Pin numbering . . . . .   | 82         |
| 6.4.2 Channel (I/O port pin) configuration . . . . .                                    | 83         |
| 6.5 The Raspberry Pi project development cycle . . . . .                                | 85         |
| 6.5.1 The hardware . . . . .  | 86         |
| 6.5.2 The software . . . . .  | 86         |
| 6.6 Project – Alternately flashing red and green LEDs . . . . .                         | 87         |
| 6.7 Running a program automatically at startup time . . . . .                           | 90         |
| 6.8 Scheduling a program to run at specified times . . . . .                            | 91         |
| 6.9 Summary . . . . .   | 97         |
| <b>CHAPTER 7 • Station Mains On/Off Power Control . . . . .</b>                         | <b>98</b>  |
| 7.1 Project . . . . .   | 98         |
| <b>CHAPTER 8 • Station Clock. . . . .</b>   | <b>103</b> |
| 8.1 Project . . . . .   | 103        |
| 8.2 Real-time clock . . . . .   | 108        |
| <b>CHAPTER 9 • Why Multitasking? . . . . .</b>  | <b>111</b> |
| <b>CHAPTER 10 • The Station Temperature and Humidity . . . . .</b>                      | <b>116</b> |
| 10.1 Project . . . . .  | 116        |
| <b>CHAPTER 11 • Station Mains On-Off Control, Station Time, and Station Weather 120</b> | <b>120</b> |
| <b>CHAPTER 12 • Station Geographical Coordinates . . . . .</b>                          | <b>125</b> |
| <b>CHAPTER 13 • Waveform Generation — Using Software . . . . .</b>                      | <b>133</b> |
| 13.1 The MCP4921 DAC . . . . .  | 133        |
| 13.2 Generating a squarewave signal with a peak voltage of 3.3 V . . . . .              | 135        |
| 13.3 Generating a squarewave signal with any peak voltage . . . . .                     | 138        |
| 13.4 Generating a sawtooth-wave signal . . . . .  | 142        |
| 13.5 Generating a triangular-wave signal . . . . .                                      | 144        |
| 13.6 Generating an arbitrary-wave signal . . . . .                                      | 146        |
| 13.7 Generating a sinewave signal . . . . .   | 149        |
| <b>CHAPTER 14 • Waveform Generation – Using Hardware . . . . .</b>                      | <b>153</b> |
| 14.1 Project: Fixed-Frequency Waveform Generator . . . . .                              | 153        |
| 14.2 Project: Keypad Frequency Entry, LCD Readout, Waveform Generator . . . . .         | 160        |

|  |            |
|--|------------|
| <b>CHAPTER 15 • Designing a Single Stage Common-Emitter Bipolar Transistor Amplifier Circuit</b> ..... | <b>171</b> |
| 15.1 Project .....   | 171        |
| <b>CHAPTER 16 • Active Low-Pass Filter Design</b> .....  | <b>176</b> |
| 16.1 Project .....   | 176        |
| <b>CHAPTER 17 • Morse Code Exerciser</b> .....   | <b>182</b> |
| 17.1 Project: MCE with User-Entered Characters .....   | 182        |
| 17.2 Project: MCE sending randomly generated characters .....  | 187        |
| 17.3 Project: MCE with Rotary-Encoder WPM Setting and CD readout .....                                 | 190        |
| <b>CHAPTER 18 • Voltmeter – Ammeter – Ohmmeter - Capacitance Meter</b> .....                           | <b>198</b> |
| 18.1 Project: Voltmeter .....  | 198        |
| 18.2 Project: Ammeter .....  | 202        |
| 18.3 Project: Ohmmeter .....   | 202        |
| 18.4 Project: Capacitance Meter .....  | 204        |
| <b>CHAPTER 19 • Frequency Counter</b> .....  | <b>209</b> |
| 19.1 Project: Frequency Counter .....  | 209        |
| <b>CHAPTER 20 • Raspberry Pi 4 Audio Input &amp; Portable Power Supply</b> .....                       | <b>215</b> |
| 20.1 Raspberry Pi audio outputs .....  | 215        |
| 20.1.1 Testing .....   | 216        |
| 20.2 Using an external USB audio input-output device .....   | 217        |
| 20.2.1 Testing (1-2-3) .....   | 218        |
| 20.3 Powering the Raspberry Pi 4 .....   | 219        |
| <b>CHAPTER 21 • Raspberry Pi FM Transmitter</b> .....  | <b>222</b> |
| 21.1 Project: Raspberry Pi 4 VHF FM Transmitter .....  | 222        |
| 21.2 Project: RadioStation Click board .....   | 223        |
| <b>CHAPTER 22 • RF Power Meter</b> .....   | <b>234</b> |
| 22.1 Project: RF Power Meter .....   | 234        |
| 22.2 RF attenuator .....   | 240        |
| 22.3 dB, dBm, and watt? .....  | 240        |
| <b>CHAPTER 23 • Raspberry Pi – Smartphone Projects</b> .....   | <b>244</b> |
| 23.1 The MIT App Inventor .....  | 244        |
| 23.2 Setting up the MIT App Inventor .....   | 245        |

---

|   |            |
|---|------------|
| 23.3 Project: Web Server to Control Multiple Relays . . . . .             | 247        |
| <b>CHAPTER 24 • RTL-SDR and Raspberry Pi . . . . .</b>                    | <b>256</b> |
| 24.1 Overview . . . . .   | 256        |
| 24.2 Installing the RTL-SDR software on Raspberry Pi 4. . . . .           | 258        |
| 24.3 The GQRX . . . . .   | 261        |
| 24.4 The CubicSDR . . . . .   | 269        |
| 24.5 RTL-SDR server . . . . .   | 270        |
| 24.6 SimpleFM . . . . .   | 272        |
| 24.7 ShinySDR . . . . .   | 274        |
| 24.8 Other SDR-RTL software . . . . .                                     | 277        |
| 24.9 The SDR – The big brother of RTL-SDR? . . . . .                      | 277        |
| 24.9.1 The HackRF One . . . . .   | 278        |
| 24.9.2 The NooElec NESDR Smart HF bundle . . . . .                        | 278        |
| 24.9.3 The AirSpy HF+ . . . . .   | 279        |
| 24.9.4 The Quisk . . . . .  | 280        |
| 24.10 Receiving Weather Fax (WEFAX) . . . . .                             | 281        |
| <b>CHAPTER 25 • Using Some of the Popular Radio Applications. . . . .</b> | <b>284</b> |
| 25.1 TWCLOCK . . . . .  | 284        |
| 25.2 Klog . . . . .   | 287        |
| 25.3 Gpredict . . . . .   | 288        |
| 25.4 FLDIGI . . . . .   | 289        |
| 25.5 Direwolf . . . . .   | 291        |
| 25.6 xcwcp. . . . .   | 294        |
| 25.7 QSSTV . . . . .  | 295        |
| 25.8 LinPsK . . . . .   | 298        |
| 25.9 Ham Clock . . . . .  | 299        |
| 25.9 CHIRP . . . . .  | 301        |
| 25.10 Xastir . . . . .  | 303        |
| 25.11 CQRLOG . . . . .  | 305        |
| 25.12 What next? . . . . .  | 305        |
| <b>Index . . . . .</b>  | <b>307</b> |
